

Mini portable handheld Laser Marking machine

Unit: cm

Portable
4.5-7KG weight
easy carry

Multiple power input

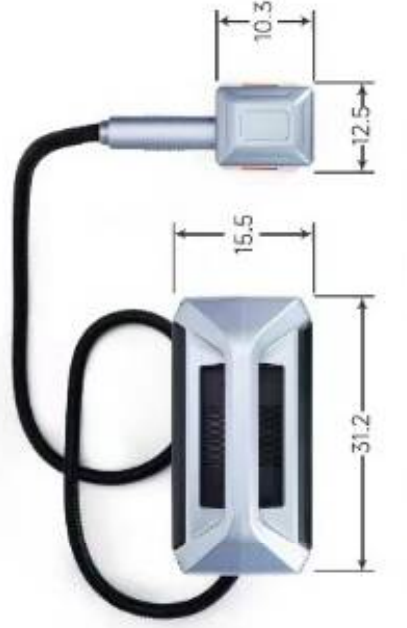

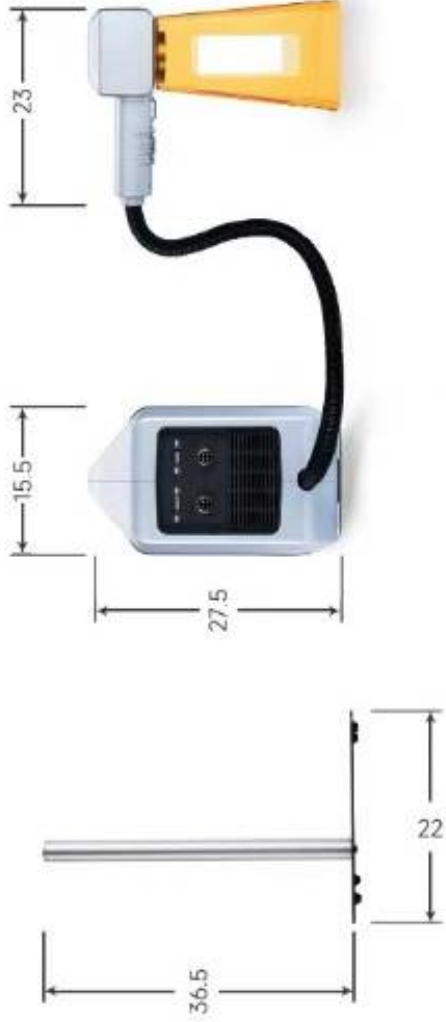

Plug-in version and battery version
Unlimited battery life, working at full
power for a long time

Touch screen
7 inch LCD screen
easy to operate

Linux system
8-core processor
high configuration
fast response

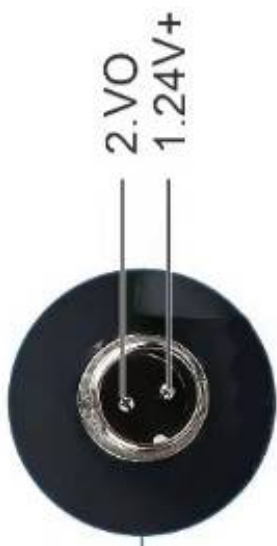

Technical data

Laser source	Fiber Laser(Version II)
Output power	20W/30W/50W
Marking Size	100×100mm
Deflector galvanometer	High-precision 2D Scanning system
Wavelength	1064mm
Marking speed	≤7000mm/s
System	Linux system
Marking line type	dot matrix vector all-in-one
Line width	0.03mm
Repeat position precision	0.01mm
Positioning method	red light positioning, focusing
Number of marked lines	any line within the valid range
Marking speed	800 characters (related to content and material)
Font	Chinese and English, numbers, etc.
file format	BMP、DXF、HPGL、JPEG、PLT
barcode	CODE39、CODE128、CODE126、QR
Power input	110V/220VAC、333Wh15Ah
Power consumption	≤250W
Working temperature	0-40°
Weight	4.5-7KG

Key function description

- 1: 5V
- 2: A
- 3: A-
- 4: B
- 5: GND
- 6: B-
